

# FLAGON SILVER ART DECO PROFILE

TECHNICAL DATA SHEET APTDS-E-178-01

## DESCRIPTION

FLAGON SILVER ART DECO PROFILE is a prefabricated element obtained by molding a pyramidal shape and is made of PVC. Manufactured in a plant certified by UNI EN ISO 9001 (Quality management system) and UNI EN ISO 14001 (environmental management system). Setting performed by applicators approved by SOPREMA Srl. Finishing and accessories composed by elements produced and approved by SOPREMA Srl.

## USE

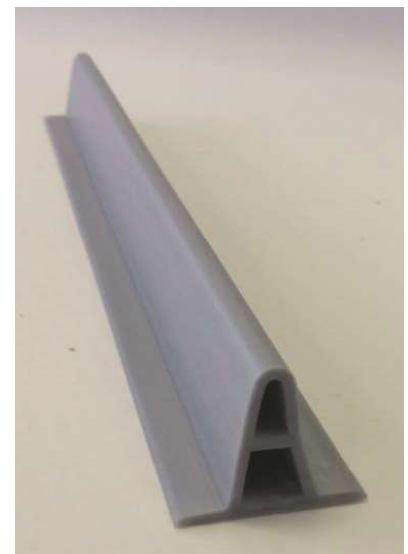

FLAGON SILVER ART DECO PROFILE is a finishing element used in waterproofing systems realized with FLAGON SILVER ART membranes.

## APPLICATION METHOD

FLAGON SILVER ART DECO PROFILE are welded with Leister hot air gun all along the length of the two lateral wing on the underlying SILVER ART membranes.

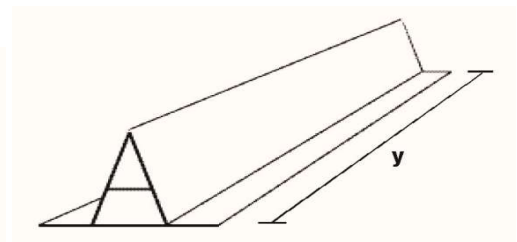

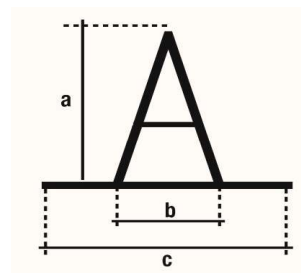

## CHARACTERISTIC

- Resistant to weathering and UV
- Excellent weldability with FLAGON SILVER ART membranes

## DIMENSION

Height	a	25 mm
Partial width	b	15 mm
Total width	c	35 mm
Length	y	3 mm
Thickness	-	2.2 mm

## STORAGE AND PACKAGING

Number of pieces for each pack	10 pz
Weight	0,240 kg/m
Length	3 m
Color	ALUMINIUM / SILVER
Application temperature	> 5°C
Storage conditions	Store at > +5°C
